

「Our Environmental Management Policy」

Environmental Declaration

Mission Statement

We as Manza Paint Co., Ltd. are environmental conscious company who respect coexistence and co-prosperity. We are hereby committed to fulfill our responsibility for global environment protection.

Environmental Policy

- ① Keep environmental related laws
Observe environmental related laws and regulations, and improve environment conservation. Continuously, we'll try to improve our Environmental Managing System and make exertion on preventing pollution.
- ② Management for hazardous materials
We have constructed the management regulations and management system of "standard for the control of chemical substances in products" such as RoHS compliant, for customer's request. And, we do look over the regulations and the management policy every year.
- ③ Promote saving resource and energy, Control carbon dioxide emission and Conserve biodiversity
We will cope with our environmental management with activities below :
 - Saving effective utilization of energy, gasoline and electricity.
 - Reducing used amount of business papers and waste and helping recycle
 - Use more environmental conscious products
- ④ Offer eco friendly goods
We appeal coating manufactures for developing environmentally friendly coatings which will meet our customers' demand. We will promote the eco friendly to our customers intensively.
- ⑤ Environmental education and Educational campaign
We as all staffs
 - Remove anything unnecessary from our offices and improve productivities
 - We work on environment conservation through saving energy and resource.
 - We aim at reducing cost through Eco Stage activities
 - We as all staffs of Manza Paint embark the activities above and make a specific target and goal for stepping up. As it progress we will review the management system and periodically.
 - This environmental policy is purpose of the promotion of environmental education to our staffs in the firm, and we also open it to outside of our company. We'll keep supporting the policy and try to cooperate with all the parties concerned with environmental issues.
